

1. KLOVE radio, and its use of translators, has been a huge inspiration for me, including when I am on vacation. It has helped me to keep a calm and tolerant attitude when I am driving.
2. If KLOVE were to be displaced by some LPFM station, which probably wouldn't have the public interest impact as KLOVE, the community would definitely suffer harm.
3. Any station that provides non-judgemental spiritual inspiration can only be an asset to any community. To have it replaced by anything else would be devastating.

Please don't allow the rules to be changed in a way that could displace any KLOVE community resource.
